## **BOOTY BASICS :**

# **ANAL DOUCHING**

Anal douching makes the anal sex experience better. The anus, rectum and colon are wondrous organs full of nerves. This area can produce some of the most intense orgasms for men. When the anal orgasm is your goal, using a Mini Douche is the ultimate way to prepare. It only takes a few quick rinses.

Douching has become more common over the years for colon cleansing and preparation before anal play. There are many schools of thought of the benefits and risks of enemas and regular colon cleansing and we are not subscribing to any one philosophy. If you want to engage in anal play, you need a method of cleaning your bowel easily and quickly.

Douching is a simple and quick process, it can be done in just a few minutes and with systems such as StroomMaster and Colt, it's simpler than ever. To the inexperienced it may seem daunting or messy, but once you've tried it a few times it's like taking a quick shower before you go out and you feel clean and fresh in a great way.

### Clean and Confident

Whatever your anal desires may be, we know that for most people, it is more satisfying, comfortable, and enjoyable for all involved if you have a clean rectum and the confidence to relax. When you are clean when using manual stimulation, prostate massagers and dildos, there is less irritation, no undesirable smells, no accidents and more pleasure.

### **SIMPLE & EASY**

Remove your Mini Douch and rinse to ensure it's clean.

Set the temperature of your water to a luke warm setting.

Fill the bulb with water just below full.

Apply lubricant or petroleum jelly to the nozzle tip.

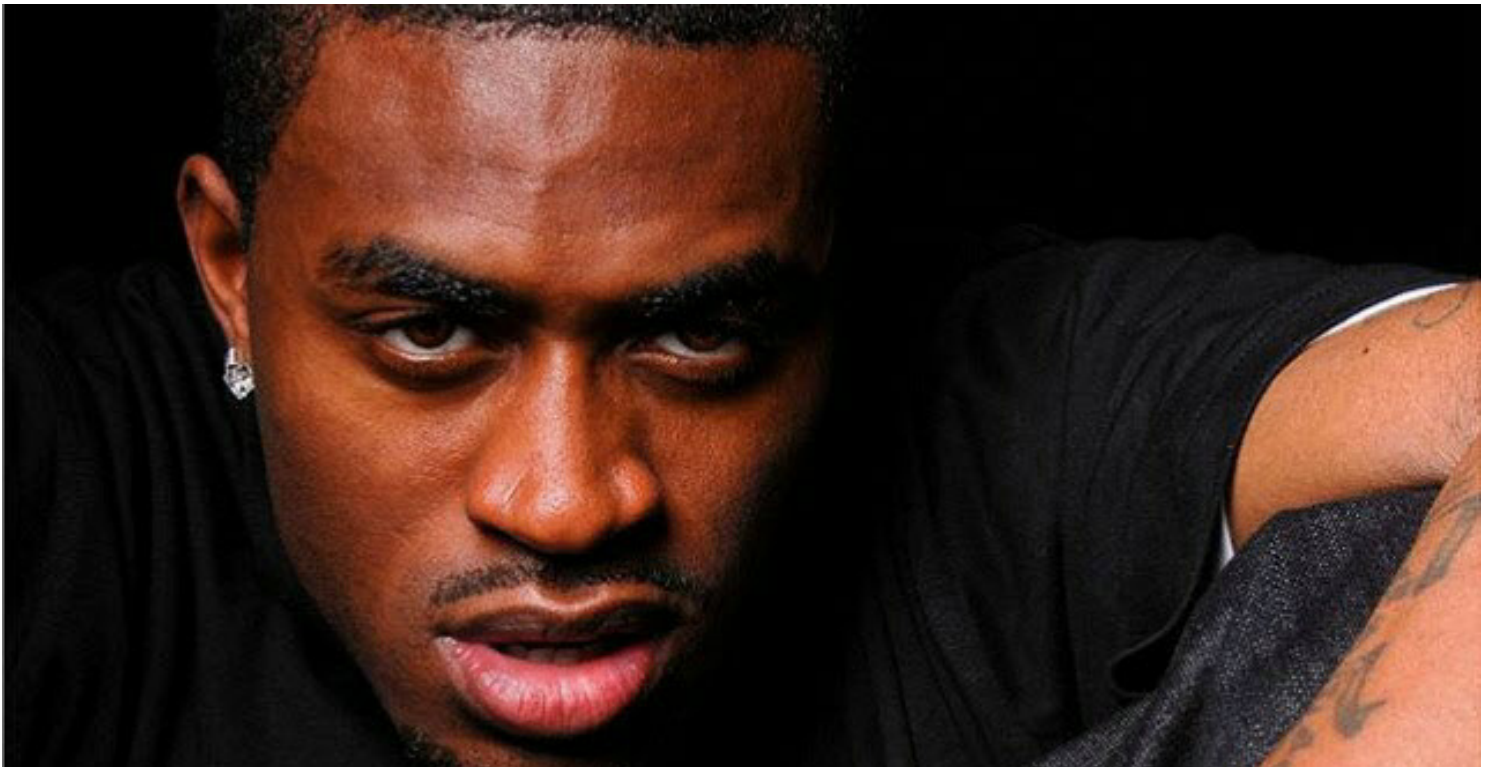

Gently insert the nozzle slightly into your anus.

Squeeze the bottle to release the water.

Gently pull the nozzle out of the anus, and you will likely feel the urge to expel.

Move to the toilet and expel.

Repeat until you are expelling mostly clear water.

## THE MALE G SPOT

Brothers have heard of the G-Spot but most men are far less familiar with their own male G-spot commonly called the P-Spot. The prostate is the male equivalent of a woman's G-spot -- and yours is far, far easier to find. The male G-spot requires a little patience. Lying on your back is generally considered to be the most comfortable position for exploration. You can reach the perineum by lifting your backside upward by sliding a pillow or two under your bum while laying on your back.

Once you've made yourself as comfortable as possible, start by gently massaging the area surrounding your anus. Use the soft pad of your index finger and be gentle. As you relax further, lube your finger up with an anal relaxer [ such as Pjur Analyse Me ] and let it gently brush across the surface of your anus. Repeat this move several times, each time increasing the pressure slightly.

Now you're comfortable ready to begin probing. Be sure to add another dab of anal relaxer to reduce discomfort and

keep the anus lubricated. Slowly insert your finger taking care to relax your sphincter during the process. Curve your finger like a hook upward and you will feel a small walnut shaped area approximately two inches inward. That is your P-spot. A prostate massager can assist you if you have short fingers or are unable to locate your magic area.

### Stimulating Your P Spot

Some men enjoy gentle thrusting movements, and some prefer intense, constant pressure on the prostate itself. You might prefer a mix of the two or something entirely different. The key is to give your body the chance to react and respond; take your time, the orgasm is worth it. It's also important to note that you may not find any of these methods pleasurable during the first exploration, you can always try again in the future. Prostate massagers that vibrate can create a pleasurable sensation without movement on your part.

This technique is great for newbies. As you get comfortable, you can add other sexual activities or even have your first anal orgasm with Dick's Signature Technique. **D**

### **HOW TO HAVE AN ANAL ORGASM**

I have received more emails on this one subject than any other. Men want to be able to have an anal orgasm. You may have heard stories about men that were able to cum without touching themselves. I have only had that experience twice in my life. And I can tell you, it is one of the most intense and pleasurable moments. I was in tears and shaking for at least five minutes after. Was it the skills of my partner ? Yes but not the skills you think. He wasn't hung and didn't have six pack. He had what every great lover does, the ability to listen and respond. This is what this article is about. Creating the atmosphere while using the right techniques that make an anal orgasm possible.

I know you're looking for guaranteed methods that will make your man bust without touching himself but that's not going to happen to all men because we are different. Most men can have an Assisted Anal Orgasm. The intensity is still there.

#### **Being Able to Relax**

If he's comfortable with you, then that's a step in the right direction. A man that cool with walking around naked in front of you and discussing sex , frees him up to let himself go to new heights of pleasure. This is needed because an Anal Orgasm has a mental component. He doesn't need to be concerned about his size when he's with you. He should feel like the sexiest man on the planet. If he doesn't want to take his shirt off then give him a hug and tell him how sexy his chest is. Give him kisses and reinforce your acceptance of his body. The rewards are worth it.

#### **Giving Him What He Wants**

You need to discuss sex before you start making love. Let your man share how he likes it, the intensity he needs and what stimulates him. A great lover is a great listener. So let him speak up. This discussion can happen while listening to smooth jazz before you have sex. Never discuss sex during sex. You can quickly kill the mood while taking attention away from pleasure.

## Tools for the Job

Since most men are only able to enjoy an Assisted Anal Orgasm, you need to have the right tools for the job. Lubrication matters. Gun Oil feels silky and doesn't dry out. It has vitamin e and aloe for added softness. I have never met a bottom who didn't enjoy Gun Oil. It is our top selling product for a reason. Now if your man experiences discomfort when being penetrated, you should use an anal relaxer to heighten the experience. Analyse Me by Pjur is an easy to use spray that goes on in a flash. You will need a prostate massager. The Onyx Prostate Massage Wand provides smooth insertion and a rounded handle. It has a specially angled tip with raised ridges that gives extra stimulation to your man while his P-Spot is being pleased. With lube and prostate massager, you are now ready to rock his spot and give him an Anal Orgasm.

## Let's Get Physical

Start your voyage to the Anal Orgasm with anticipation. Anticipation can be one of the greatest aphrodisiacs. Grab him and give him a deep kiss out of the blue. Talk about what you plan to do to him sexually [ now that you know what he likes ]. Start your quest with an erotic massage. It relaxes him and allows you to connect on a tantric level before you take it up a notch. Erotic massage also builds the sexual tension that contributes to the Anal Orgasm.

## Getting Down and Dirty

There are a whole lot of ways to bring your man to the Anal Orgasm. Incorporate these tips before you get to our Assisted Anal Orgasm Technique to increase the intensity of his climax.

## Kiss and Touch

His body will become more in tune to yours leading to bigger and better things. Kiss his mouth softly, using your tongue to massage his lips and tongue. While you're doing that, use your lightly lotioned hands to softly but firmly grasp his body and rub the back of his head, shoulders, rub your fingers up and down his spine stimulating him in a way most men have never experienced. Purposely avoid touching his penis because that's what he's expecting you

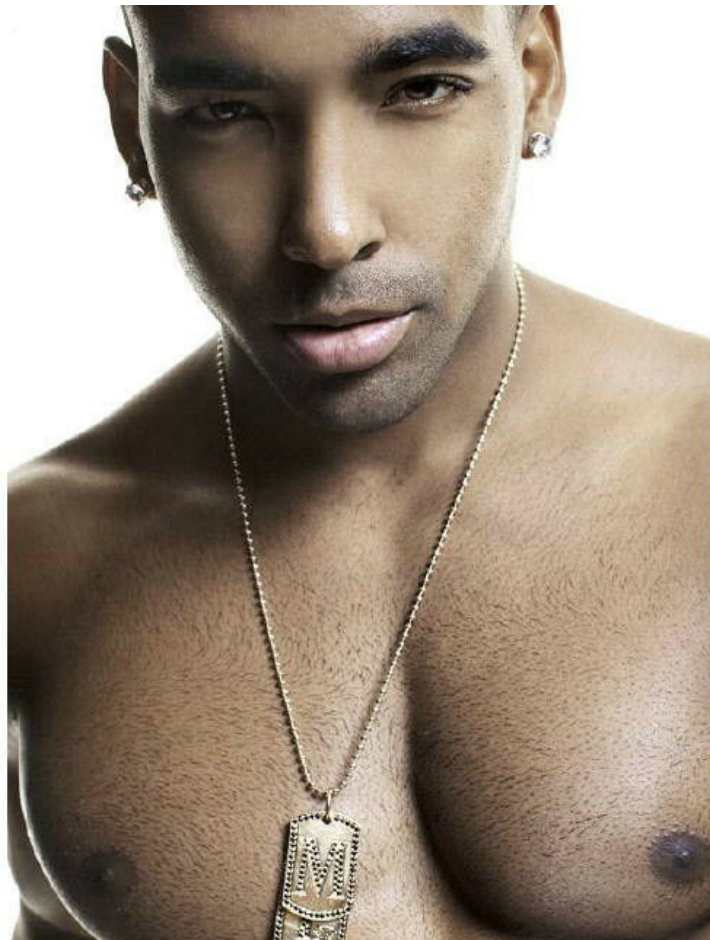

to do. This will, in turn, serve to make him feel incredible when you do finally decide to touch him there.

## The Nipple Jack

Men have very sensitive nipples that can drive them wild. Have your man sit on top of you and suck one of his nipples while lightly pinching the other one. Now take your other hand and stroke his penis gently. Go slowly, there's no need for speed.

## Oral-linugs

Get down on your man and slowly lick him the way he likes it. Start at the top of his head and work your way down to his balls, move down to the taint and back up to his balls. He will be highly aroused. Now insert one finger into his ass -- palm facing up -- and make a " come here " motion. At the same time, give him some oral satisfaction. You are now stimulating the P-Spot leading to the Anal Orgasm.

---

## The Doggy finger

# THE ANUS HAS THE LARGEST CONCENTRATION OF NERVE ENDINGS...

Many bottoms love it doggy style. You are going to do this with a twist. While inside him, lick your fingers and rub his nipples. He should be reacting with moaning. Don't stroke fast, build a slow pace that keeps him in the zone.

## Now it's time for the Anal Orgasm

At this point, you can enjoy several sex positions if you are really enjoying the penetration. Be sure not to climax because you will need energy and focus to make your man get his. Remember Oral-lingus ? It's time to take it to the next level but we will use the prostate massager. Have him lie on his back. Place the massager on the p-spot while you are giving him oral pleasure. Gently stimulate his nipples. Your man will feel sensations that will be intense. Encourage your man to masturbate and reach orgasm. This will be an intense moment for him.

## After Glow

Once your man has climaxed, clean him up and cuddle to create an added sense of intimacy between you. You will feel like a winner and I can guarantee he will be hooked. **D**

## AMAZING ANAL

Anal sex is an amazing experience for many men but there is a problem. It is very easy to feel limited in the positions available for rear entry. You may have a few under your belt but adding a few new tricks can kick up a notch.

Before I get into the backside of things, keep in mind that the key to anal pleasure is comfort, cleanliness and communication. You must feel comfortable with your partner. Never allow anyone into your back door that you don't trust and never take a raw load untested.

Start your session with a Mini Douche. Apply an Anal Relaxer to soothe your sensitive areas. And always communicate during the act to ensure that you are comfortable. Remember, the person on the bottom is the one in control. It is never the other way around.

### Lock & Pose

Have your man lie down on the bed with his stomach down, legs open and feet in the air. Get on top of him (between his legs), but hold your upper body up with your hands by straightening your arms. Get him to tighten his thighs as your thrust inside of him.

### Supported Doggie Stretch

Your man starts off in the typical doggie position on all fours. You should be behind him, place your hands on his waist and lift him up so that he can wrap his legs around the backs of your thighs. While you penetrate, he can use his feet to push your buttocks toward him so that you go deeper.

### The Backdoor Fire Hydrant

Have him lean over a chair, resting on his elbows. While you're leaning behind him, place one hand on the chair and the other on his hip. Raise one of his legs and place it over your hip. Now you're ready to get inside. Keep in mind that placing his leg at different angles (straight out or bent) will change the angle and feel of penetration.

### The Corkscrew

For this position, you'll need a comfortable ottoman or (a large) upholstered footstool. While he's sitting on it, get her to lean on one elbow while resting his feet on the floor, keeping his legs together. Placing a hand on either side of his body, with a leg on either side of the ottoman (or footstool), make your way inside of him and slowly come to a rhythmic motion.

### Stand and Bend

Have him stand and use his hands to lean over a desk. Make your way behind him and once you make your way inside

him, place a hand on either side of him and lean on the desk. Or you can always place your hands on his waist. If there's a slight height difference, he can stand on his toes, you can provide a pedestal, or you can bend your knees (assuming you're taller, of course).

#### Squatting Rear

On the bed, lie down on your back and place him over you as you would if she was going to ride you. But rather than rest on his knees, get him to squat using his feet and place you inside of him from the back. Keeping his legs as far apart as possible, watching as your penis goes in and out of him will definitely turn you both on like crazy.

Different positions will always add to the flavor of the awesome sex you're already having. And variety is what will keep things fresh in the bedroom and anywhere else you decide to do the deed. So until next time, get into position and enjoy the flip side. **D**

# **MEN ARE USING DILDOS MORE THAN EVER FOR ANAL PLAY AND ENJOYMENT ...**

## **HOW TO CHOOSE A DILDO**

There is nothing like good hard dick. But when your man is not available, you need something to fill you up and take you to ecstasy. Fortunately, dildos are the perfect alternative. Going to the adult store can be a frustrating process for a newbie since there are so many to choose from. And most adult store clerks have very little training or experience to make the best recommendation. That is why choosing DickzToyz.com is your best choice. They are preferred by experience users.

### Size Does Matter

Dildos come in many sizes and diameters. Be sure to check the circumference before buying. Many dildos that are not long are very thick and difficult to insert. A good rule of thumb is use a tape measure to figure out how big around you prefer your toy. Then use that figure to decide which one to buy. Newbies will be pleased to know that there are many dildos on the market that have short lengths and diameters. Manufactueres such as Doc Johnson makes a line of dildos that are perfect for begginers.

### It Looks Just Like the Real Thing

" Pull your pants down and let me wet that dick with this boy pussy. " I said, while spreading my cocoa cheeks anticipating his curved vanilla cock. I leaned against the hood of his truck while rubbing my nipples as I slowly made seductive circles with my phat ass. I carefully swallowed his shaft while squeezing my ass muscles to milk his dick. Round and round, I repeated. I wanted him deep inside me until he made me his regular whore.

" Take this cock, nigga? You like this country white boy fucking you? I am going to give you my babies ... Make a nigga with you. "

I knew he was ready to bust so I turned the heat up a notch. " Give me them babies...make this boy pussy cum..Yeah..spank that ass with your dick...mmmm...nut in this filthy hole."

The nastier I spoke, the faster he stroked my ass. " Right there daddy. Oh, yes. " I moaned while opening a foil packet of Stroke 29 lubricant. I massaged my dick while his pole found my special place. " Give me that nut. Make your whore happy.

You ready to spit ? "

He was on the verge of shooting his love juice. His sweat trickled on my back as he thrust deeper, stabbing my ass while igniting the fire that inspired me to get his money. He was the type of client that could take me off the streets.

I was putting it on him real good. He'd only been in me for three minutes and he was about to bust. " Oh, Shit ! Yeah nigga, I'm cumming !" I squeezed my ass muscles while bouncing back and forth. I could feel his warm milk tease my prostate. He shook feverishly, collapsing on my back. I loved to take ' dates ' to the park after hours. I could be as nasty as I wanted without the threat of being arrested.

After pulling up his pants and getting back into the truck , he handed me twenty dollars. I now had enough to buy a chicken box, bus pass and the remainder of my bed rental at the shelter. Hopefully, he would want to meet me again. I was desperate to do better.

## BOOK REVIEW

"Single Husbands" is a dramatic, sex induced, and hellish journey through the lifestyles and marriages, or lack thereof, of three men. Herschel, Lexington and Brian are three men etched from the same stone; they can't help but cheat. The men are far from knowing the definition of marriage or fidelity. This is the way they are and have always been. Why change because of marriage? The women stand their ground throughout, even though it doesn't change a thing. Each couples journey comes full circle and let's just say the men will never be the same.

"Single Husbands" has realism and the ability to connect with the characters like I've never experienced before. There were so many moments I would think, "OMG, that happened to me once or twice." And I'm sure many people, can relate to the situations that arise in "Single Husbands."

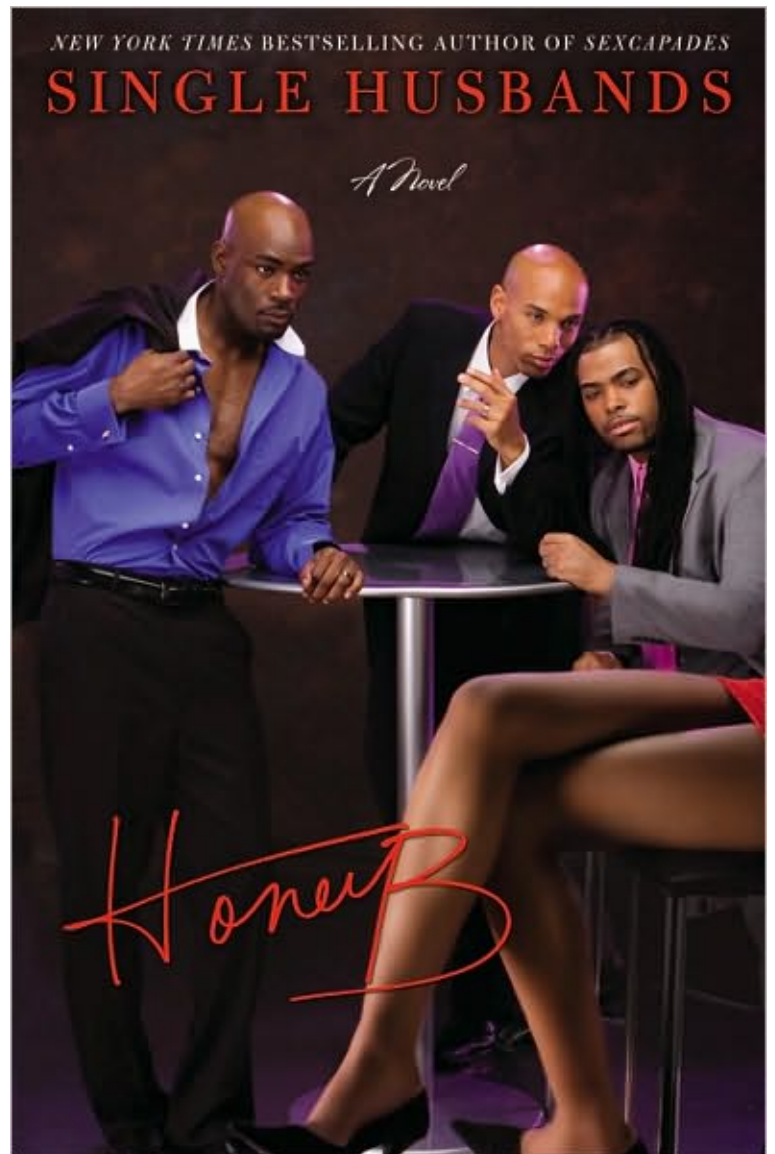

The language is a little over the top in some areas but fitting to the plot. I mean who wouldn't be down right ticked off if their spouse went to a sex club not once, but

numerous times a week. The sex scenes were vivid and very descriptive, bordering porn, but were written in a realistic way. I have to admit many of the scenes were very smutty. But like I said, there are sex clubs involved. So if your looking for a clean romance type novel, this isn't it.

Honey B takes her readers through hellish marriages, causing the reader to ask themselves important questions about marriage, love, commitment, and self-worth. I was impressed by the powerful message the author had in the front of the book: "Educate, Don't Procreate." The introduction titled, "Is there a loophole in marriage vows?" is alarming. I have to applaud Honey B for placing a warning in her book as well. That's a new one for me, but definitely necessary.

Overall, "Single Husbands" is a fantastic read. It will make you think, rediscover yourself, and is quite empowering. I would definitely recommend it to readers who like to walk on the wild side in their reading choices or enjoy a steamy, sultry read

from time to time. This book will positively light your fire. - GoodReads.com

## WEBSITE REVIEW: AUSTINWILDE.COM

Austin Wilde is the latest gay star to get his own site from Nextdoor Studios, and he's a hottie. Sporting a great body (love those sixpack abs!), a mischievous smile and a shaved head, his tour shows him jacking off, getting his cock sucked - and doing his share of the sucking - and doing some ass fucking. The tour offers regular live shows and links to Austin's blog.

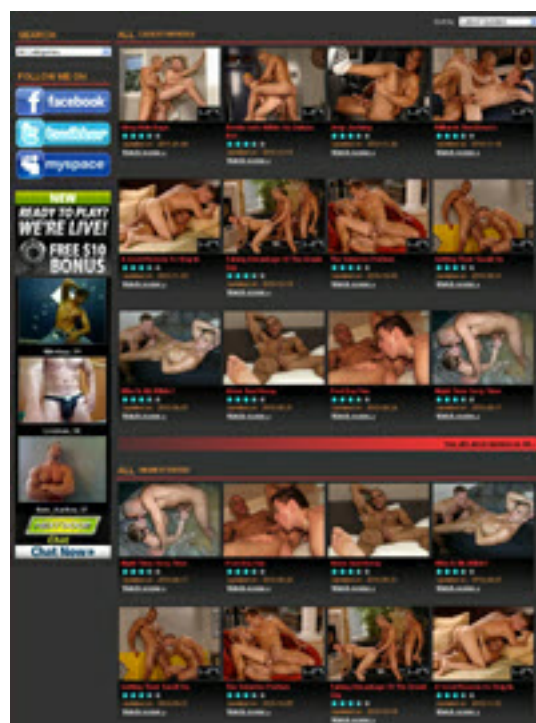

The Austin Wilde member home page gets you right into the mix as just below bonus site dropdown and member navigation links is the full sized and playable latest video with the download links right below. Underneath are links to the live show, and when there's no show you can see the scheduled times and dates for the next ones. Below and to the left are dropdowns to let you search the content, and on the right are latest updates - each with a juicy thumb, member rating and the date added.

Austin seems to have a taste for guys who are like him - college-aged jocks with well-muscled bodies, a taste for cock and who are turned on having sex in front of the camera. There's plenty of dick-sucking - when it comes to blowjobs, Austin likes to give almost as well as to receive - and there's fucking, with Austin topping.

In addition to the pics and videos, Austin Wilde members get access to some more cool stuff. First of all, there are 8 behind the scenes videos in the "On The Set" section. And let's not forget that members get access to an entire network of 18 gay/jock, 1 bi and 1 straight sites featuring horny guys and downloadable videos.

Austin Wilde is a hot guy. I love his shaved head and that "fuck me" vibe, not to mention his great body. The site is fairly new, offering 13 downloadable DRM-free videos and 15 photo sets. The site has almost daily live shows with various guys from Nextdoor Studios. If you don't mind smaller sites, like

boy-next-door type jocks fucking and sucking, and Austin turns you on, Austin Wilde is worth a visit.

## WEBSITE REVIEW: TIMTALES.COM

Tim Tales is the site of big-dicked porn performer Tim Kruger and his real-life boyfriend Grobes. Tim does the networking and scouting for guys to appear in their pics and videos, Grobes does the production and video editing, and both of them sometimes take a turn in front of the camera. I like the tour of their site since it allows non-members to click the Videos and Photos links and preview all the action and the models. There's also an About Us section I liked since Grobes and Tim tell us about their site and also it's mission, which is authenticity.

Let's talk about the men of Tim's Tales. First off, Tim has a great big uncut cock, a nicely trimmed beard and a firm body that's a bit on the hairy side and unshaved. His boyfriend, Grobes, is a pretty well-endowed daddy in his 40's, and has a rougher masculine look and tattooed arms (he's almost fully sleeved). In fact, many of the guys on Tim Tales have above-average sized cocks and range in age from their 20's to one horny 50+ guy they call Big Dick Daddy.

Expect a mix of pornstars, daddies and amateurs, and man, are these guys cock-pigs! The action here is among the hottest I've seen anywhere, as the guys seem to really be into the sex, which varies from blowjobs and barebacking to pissing and more kinky stuff.

I really like Tim Tales for a variety of reasons: the very hot downloadable videos in both WMV and MP4 format plus mobile versions, the men who are obviously really horny and have big dicks, and I really liked Tim and his boyfriend's blog entries on the member home page plus the descriptions for each video and pic set give the site a personal feeling. The content is pretty good quality, and the site has grown to 157 videos, and seems to update once a week. Whether you're a big dick lover, a fan of Tim Kruger or like real men and down and dirty gay sex, Tim Tales is definitely worth checking out.

## WEBSITE REVIEW: RODDAILY.COM

Meet Rod Daily. He's cute, horny, bisexual and versatile, which means almost anything goes. Rod's a jock with a great body - he's well-built without being too muscular, and he's got a laid back, easygoing personality. His website shows him getting sucked by guys and girls, in all-male threesomes and foursomes, plus a M/M/F bi threeway. The tour shows previews of every video and pic set from his site's member area, so you can get a good idea of what the member area has to offer. It also promises HD videos and weekly updates. I'm ready for more, so join me for a look at the member area!

Rod has a great physique, and so do the other guys that appear with him on the site. You might see some you recognize, including Phenix Saint, Tommy D, Parker London and big burly Vince Ferelli. All the guys seem to love sucking dick, getting sucked or both, and Rod seems to have a great time in front of the camera whether he's in an all-male group session, one-on-one, fucking a girl or getting himself off on camera. These are fun studio shoots that are mostly pretty well lit and hot to watch.

When it comes to updates, Rod Daily has some good ones. There are 18 bonus sites, several of which feature athletic jocks like Rod, and a couple of whom appear in his videos. There are gay sites, bi sites and a straight site, and all offer downloadable videos and updates. There's also the daily scheduled live show - Rod doesn't appear in it yet, but there are other guys from the network who do. While there's a blog listed, there's no posts from Rod yet.

Rod Daily delivers exclusive content, hot guys (and a couple girls), and well shot action in downloadable DRM-free videos and pics. Rod himself is athletic, tattooed and has a great attitude. He's up for all sorts of sex, and his cock is always hard. I appreciated the regular weekly updates and the good quality videos, although it would have been nice to have HD videos for download as well as streaming. There's plenty of bonus sites, many starring some of the same guys you'll see in scenes with Rod trading blowjobs. The bottom line - if you like well-built jocks with great bodies, gay sex plus a little bi action, Rod Daily's site is worth checking out.
